Saltash

Highway improvement projects

June 2022

The following information gives an overview of our highway improvement programme in Saltash.

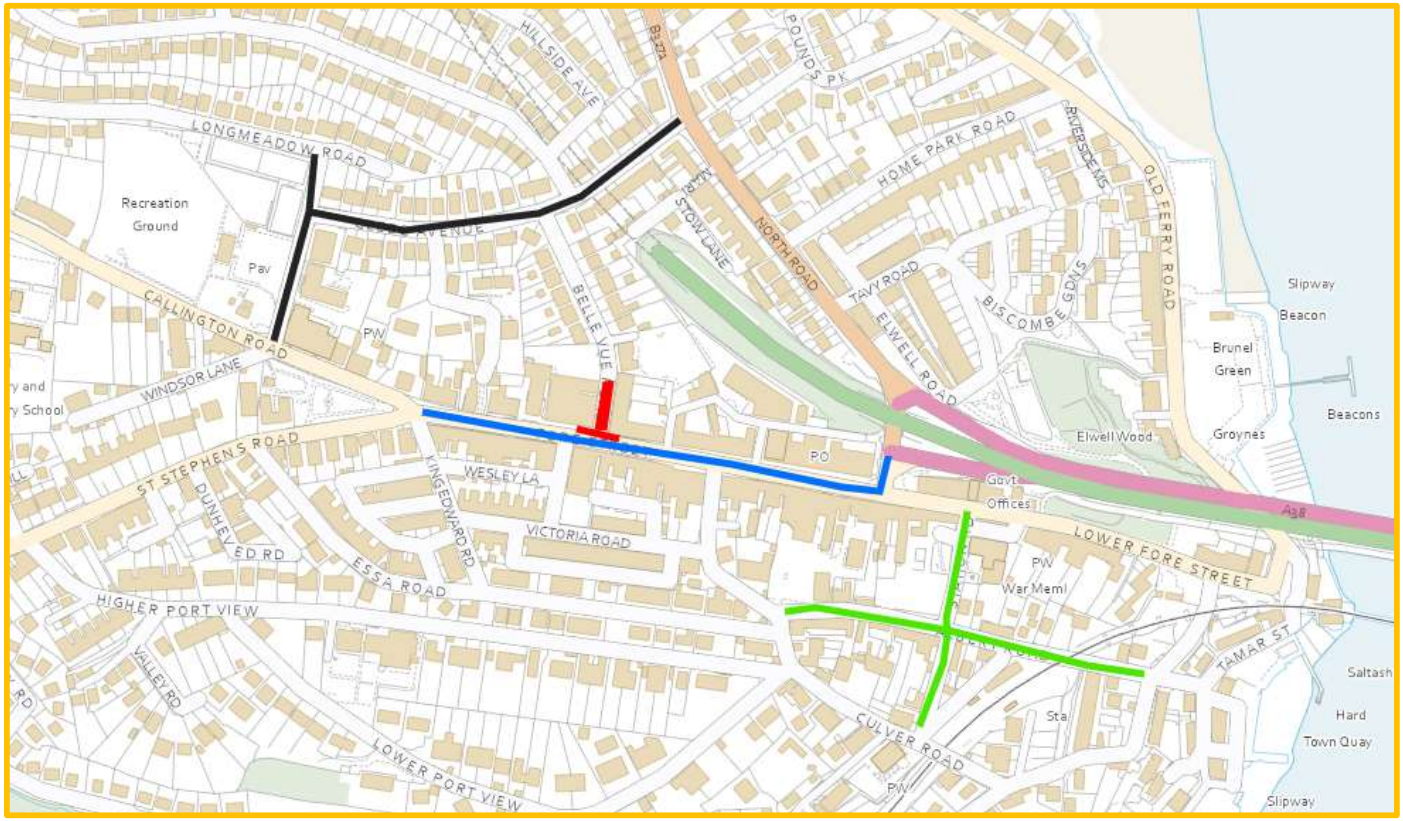
Our planned delivery dates are indicated in the timeline below.

The schemes will be carried out under a mixture of day and night closures to best minimise disruption to road users and residents where possible.

Road closures will be in place to allow us to carry out the works safely.

Please be aware that this information is correct at the time of circulation but is subject to change.

More details will be shared as the schemes progress.



- Belle Vue – Junction Improvement Works
- Fore Street – Resurfacing Work
- Station Road & Albert Road – Resurfacing Work
- Glebe Avenue - Resurfacing Work

To prevent delays, and to enable us to maintain emergency access please do not park on, or obstruct the highway during working hours.

Thank you for your patience while these works take place.

A CORNWALL COUNCIL COMPANY

FAST FACTS

WHAT	WHERE	WHEN	DAY/NIGHT	TRAFFIC MANAGEMENT
Junction Alterations	Belle Vue Road/Fore Street	6th – 17th June	24 hour closure Day Works	Road closure on Belle Vue Road
Resurfacing	Fore Street	20th June – 8th July	Night works	Road closure & parking restrictions
Resurfacing	Station Road & Albert Road	11th – 15th July	Day Works	Road closure
Resurfacing	Glebe Avenue	18th – 22nd July	Day Works	Road closure

Our day works will be carried out between the hours of 7.30am and 5.00pm, Monday to Friday.

Night works will be undertaken between the hours of 7.00pm and 6.00am, Monday to Friday.

The Belle Vue junction alteration works will be under a 24 hour closure, weekends included for safety reasons.

We know that noise associated with night-time working can cause disruption to residents and we understand this can be frustrating. Please be assured we aim to complete the noisiest operations as early as possible. We will work as safely and as quickly as we can to get the works complete.

We are carrying out a large amount of work within these closures in order to deliver all our planned surfacing activities in one go. By combining the schemes we are making every effort to reduce the impact to the surrounding communities, removing the need for return visits.

Access arrangements

Access for residents and businesses will be maintained through gateways managed by traffic marshals. Residents will need to stop at the gateways and our staff will help you to get into, or out of the roadworks site safely using the right route.

Please be supportive by respecting and responding to any speed restrictions and the safety instructions given by staff.

If our teams need access or have to move machinery out of the way there may be significant delays.

We will always do our best to accommodate day-to- day requirements of people affected by our works, and access will be maintained as much as possible for those people directly impacted by the closure.

Emergency access will be maintained at all times.

Diversions

Signs will be placed at major junctions prior to the closure on the key routes to take non-through traffic away and keep traffic disruption to a minimum.

Diversion routes have to be suitable for the type of traffic that would normally use the route. We appreciate they can sometimes be quite lengthy, but in order to carry out the works safely to protect our operatives and road users we need to implement these measures.

The diversion routes will be available online at one.network. as soon as each scheme starts. This will be kept up to date by the team.

Notifications

Resurfacing and patching work is weather dependent and may be delayed by cold temperatures or heavy rain.

If this situation arises, it may result in works being delayed and we will do our best to update the advance notice boards on the site.

Working safely

Suitable barrier systems will be in place to safely separate pedestrians from hazards to provide a safe route around our works.

We would also encourage drivers to keep to the speed limits and follow appropriate signage to ensure the safety of those working on site and fellow road users.

Please be kind to the workforce. All our sites will be appropriately risk assessed and have strict safeguarding measures in line with current health and safety and Public Health England guidance to ensure the safety of residents and our staff.

Getting in touch

For enquiries regarding the surfacing works, please email: **surfacing@cormacltd.co.uk**

You can report an issue on a road, highway or footway on the Cornwall Council website: www.cornwall.gov.uk/reportroad

If there is an issue which is a threat to public safety, please telephone **0300 1234 222** (24 hour service) giving details of the location.
